14.- (1) For the purposes of any public survey or in the performance of any of his functions, the Commissioner or any surveyor authorised by him may, with notice to the owner or possessor, enter upon any land with such assistants as may reasonably be required, and may affix or set up or place thereon or therein trigonometrical stations, monuments, survey beacons, marks or poles, and do all things necessary for such survey.

(2) Compensation shall be paid out of the Consolidated Revenue Fund to the owner of any crops or cultivated trees cut or damaged in the exercise of any of the powers conferred by subsection (1), and if any question shall arise as to the amount of compensation to be paid or the right of a claimant to recover compensation, such question shall, in default of agreement between the Commissioner and all persons concerned, be finally determined by a magistrate having jurisdiction in the district in which the damage occurred, on application made by the Commissioner, or any person authorised by him in that behalf, or by any person claiming to be entitled to compensation under this section:

Provided that, except at the discretion of the Commissioner, no such application shall be granted if it is by a person claiming to be entitled to compensation and is made more than thirty days after the date on which the crops or trees in respect of which the claim is brought were cut or damaged.

15.- (1) Any surveyor engaged in a survey other than a public survey to survey any parcel of land shall, before he proceeds to run any lines, give seven days notice of such proposed survey to the reputed owners or possessors of that land, and such other owners or possessors of adjoining lands as may be affected thereby.

(2) Where the whereabouts of such owners or possessors are not known, the notice of the proposed survey shall be published in the Gazette or in a newspaper circulating in the district where the land is situated and a copy thereof shall be posted in a conspicuous place on the land at least two weeks before the day of the survey.

(4) Compensation shall be paid for any damage done to any land by reason of the exercise of the powers contained herein and any such compensation payable shall be subject to agreement between the surveyor and the aggrieved party or parties:

Provided that, where such agreement is not possible, the Commissioner shall act as arbitrator and, in default of a settlement by such arbitration, compensation shall be finally determined by a magistrate having jurisdiction in the district in which the damage occurred, on the application of any person claiming to be entitled to the compensation.

16.-(1) Every licensed surveyor who executes any survey in accordance with this Act, or any regulations made thereunder, shall deposit with the Commissioner the original of the plan of such survey and the field notes and computations made by him following upon such survey, and all such plans so deposited in the Lands and Surveys Department shall become the property of the Government:

Provided that in the case of lands not falling within a compulsory registration area under the Registered Land Act, a plan deposited with the Commissioner under subsection (1) shall be kept carefully by the Commissioner together with a book containing an index of such plans showing the names of the alleged owner of the land as well as the name of the property, if any, specified in the plan.

17.-(1) The Commissioner may at any time undertake such field and office checks on the survey work of a surveyor as he thinks fit, or as recommended by the Board.

(2) The Commissioner may, after receiving a plan for authentication under section 18, by notice in writing within one year of the receipt thereof, instruct any licensed surveyor to correct at his own expense, within six months of such notice, any error made by him in the survey represented by the plan.

(3) In the event of such licensed surveyor neglecting within the time specified to correct such error, the Commissioner may undertake such correction
and recover the whole cost of the correction from the licensed surveyor concerned.

18. No land shall be considered to have been surveyed or resurveyed until the plan thereof has been registered and authenticated by the signature of the Commissioner. Such registration and authentication shall be completed as soon as may be after the receipt of the documents in the office of the Commissioner, and in any case not later than thirty days from such date of receipt.

19.-(1) Where, in the case of a document or instrument to which an authenticated plan is attached, or in which reference to such a plan is made-

(a) the plan is found to be inaccurate by reason of any error or omission in the survey; or

(b) the plan does not conform with the terms and conditions subject to which permission to subdivide the land to which the plan relates has been given,

the Commissioner may cancel the authentication of such plan and may recall any copies which may have been issued.
